

TOUCH&MATCH

Home Grinder

TOUCH&MATCH

Touch&Match is the automatic grinder-doser that guarantees perfect grinding both at home and in a bar.

Thanks to the three colour variants, chrome, glossy white and matte black, it perfectly matches any environment.

On-demand grinding guarantees the freshness of ground coffee, preserving all its sensory properties.

The setting system is quick and intuitive: thanks to the touch screen interface, it adapts to the preparation of all types of coffee, from espresso to filter coffee.

Finally, the cleaning process is very simple and ensures the removal of any residue in the grinding chamber for perfectly extracted coffee.
